SiRcom

Engineering Advancement Since 1993

Intelligible Acoustics Design

SiRcom has redefined the industry standard for outdoor warning sirens, delivering clear, intelligible alerts that can be heard from miles away. Our commitment to engineering excellence and innovation sets us apart from imitators, as our intelligible sirens showcase pioneering design and advanced audio drivers. Since 1993, we have remained at the forefront of acoustics technology, continuously pushing boundaries and raising the bar for others to follow. Trust SiRcom to provide unmatched sound quality and clarity, ensuring that crucial information is effectively communicated in life safety situations.

Continuous Advanced R&D

SiRcom engineers continually enhance sirens and components for maximum reliability, security, and effectiveness. Our investment in modern technologies like machine learning and wireless secure communications simplifies life safety solutions. Today, SiRcom is the trusted choice of public safety officials, setting the gold standard in the industry. Experience advanced life safety technology with SiRcom

Simplifying Chaos Management

SiRcom offers fully integrated indoor and outdoor life safety solutions for organizations of any size or industry. When it comes to managing emergencies, our user-friendly solution provides reliable capabilities for effective communication. Trust SiRcom to safeguard lives and ensure the simplicity and effectiveness you need.

TODAY   Most Capable Solution

■ World's Most Customizable Alert Displays

The Si-Touch Panel is a multi-purpose mass notification & safety systems management device. The Si-Touch can be deployed as a standalone mass notification system management device or it can be an add-on to an existing indoor and outdoor system. The Si-Touch Panel provides all of the features of the SiRcom Central Control station. This means that from any Si-Touch Panel, a user can activate the indoor and outdoor mass notification system. In addition, Si-Touch Panels can be easily configured to become panic buttons, indoor visual alert panels, two-way help stations, and even a CCTV camera devices in areas not covered with security systems. The Si-Touch Panel is truly a stand-alone mass notification system that can modernize any existing legacy analog systems or be the backbone of new installation.

■ Use Case Options

The SiRcom Si-Touch Panels provide the following capabilities:

- Central Control Panel
- Public Address Management Device
- Local Operating Consoles (Outdoor Sirens)
- Visual Alert Displays (ADA Compliant)
- Intelligible Voice & Tone Alerting Device
- Two-Way Help Stations With Video & Sound
